

Project Details of PV TILE in-roof system

SOLAROOM 's patent product, passed MCS012 of UK. The racking is based on non-frame solar module and used for tile roof, like Roman tile, flat tile, etc. We dealt with the project from the beginning to when the whole system was put into the marketing. SOLAROOM provided one stop services to the customer:

- Supplier selection (flashing, wooden decking, solar module, fasteners, etc.);
- System Design;
- Product manufacturing, QC/QA flowing;
 - a) Aluminum and sheet metal parts;
 - b) Solar Module.
- System testing and improvement: including Structure and Electrical;
- Package design and coordination with other related matters;
- Export the goods to UK.
